

BLOCKCHAIN SYSTEM 29

MARKUS JOHANSSON

The Blockchain System consists of extruded aluminum cubes, attached together apparently random. A single cube traveling through time and space – rendering a sequence of positions for the beholder. But there is order in chaos, a millimeter precision to create this perfect silhouette. Every second cube is lit with a custom-made LED panel, designed and directed to distribute a uniform light on whatever is below.

PRODUCT	Blockchain 29
SIZE	3175 x 134 mm
MOUNTING	Pendant
PRODUCT CODE	MJBL2003.X11
FITTING	15 pcs custom LED
WATT	15 x 3w (3000 K)
ENVIRONMENT	Indoor
FINISH	Semi-matt paint
COLOR	Black RALXXXX and Blue RALXXXX
VOLTAGE	220-240v
DRIVER	DALI, Push-Dim
CORD LENGTH	300cm
MATERIAL	Aluminum, acrylic diffuser
TECHNICAL DESCRIPTION	Pendat lamp providing down-light from 6 cubes. Dimmable LED driver is provided and fitted in the canopy.
