

DORIC COFFEE TABLE, 140x80 cm

BY GAMFRATESI, 2021

Description

GamFratesi's Doric Coffee Table expands from Neutral White Travertine to Honey Amber and Stormy Gray marble, bringing new material character to the collection's sculptural form. Rooted in the proportions and detailing of Classical Doric columns, the design balances monolithic presence with softened curves and edges. In Honey Amber, layered sand and blush-toned formations with warm yellow and honey-brown undertones create a rich, expressive surface, while Stormy Gray introduces a cooler, more graphic composition shaped by fractured veining and shifting gray tonalities. Formed through natural geological processes, each marble slab carries its own depth, movement, and mineral variation, ensuring that no two Doric Tables are ever exactly alike.
